

College Preparation Data

Kerry McConnell

Governor's Office of Education Innovation

June 18, 2013

College Preparation Data

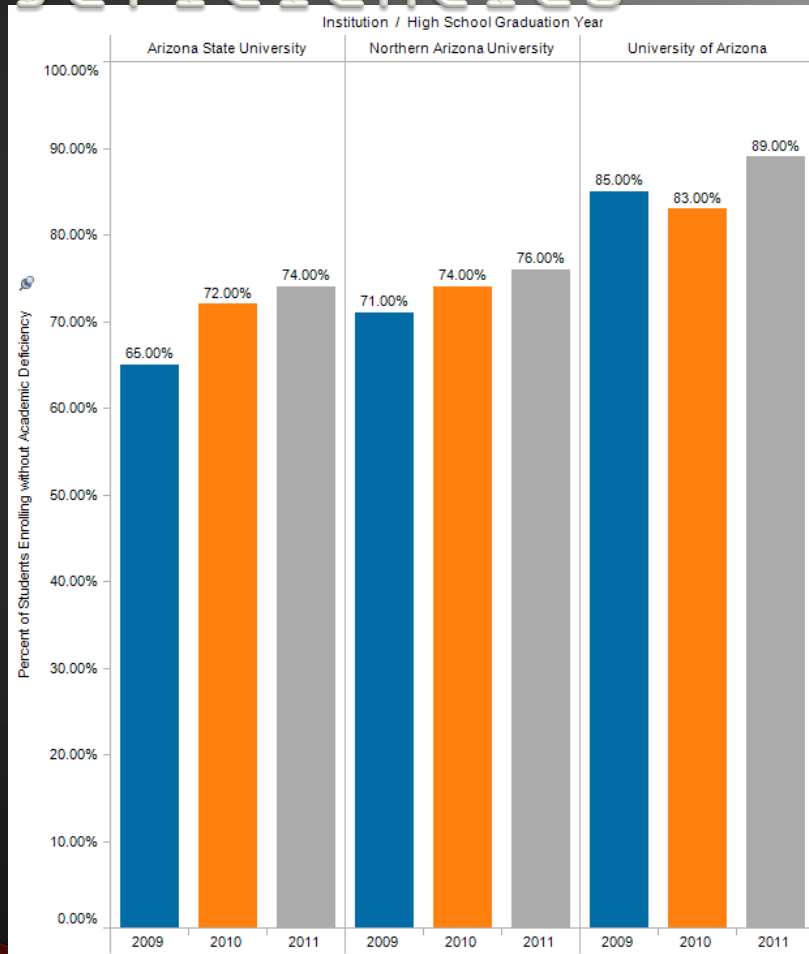

► Several measures

- Percentage of students enrolling in college without academic deficiencies
- Percentage of students enrolled in courses in English and Math
- Percentage of students earning a "C" or above in first college course in English and Math

Academic Deficiencies

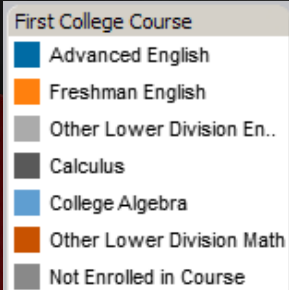

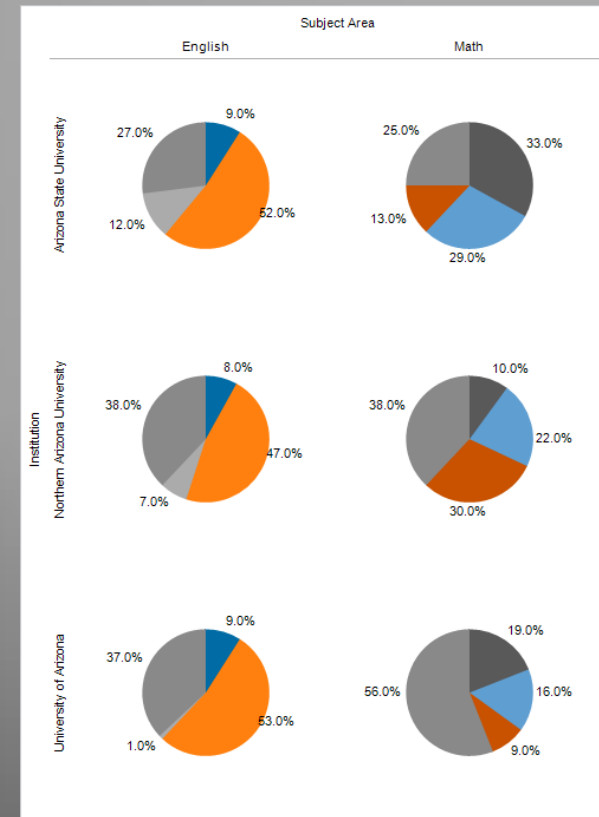

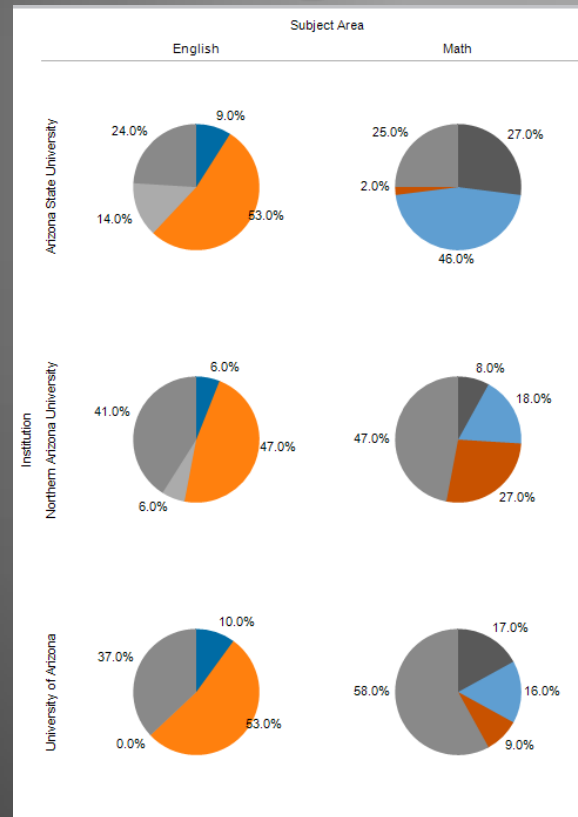

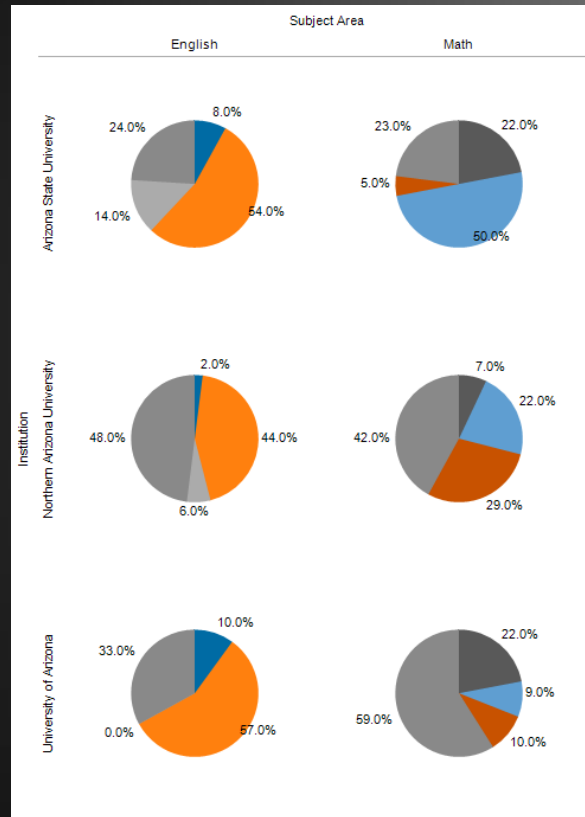

- ▶ Students enrolling in college may be missing certain admission requirements (which they are required to then address)
- ▶ Not the same as requiring remediation
- ▶ All courses included in this data set are college-level credit-bearing courses

Percentage of Students Enrolling in College Without Academic Deficiencies

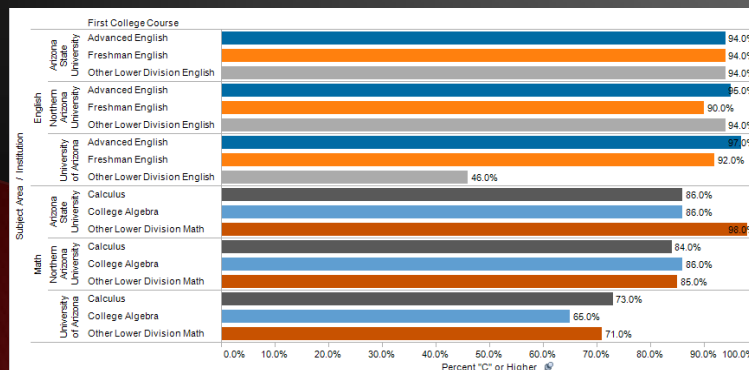

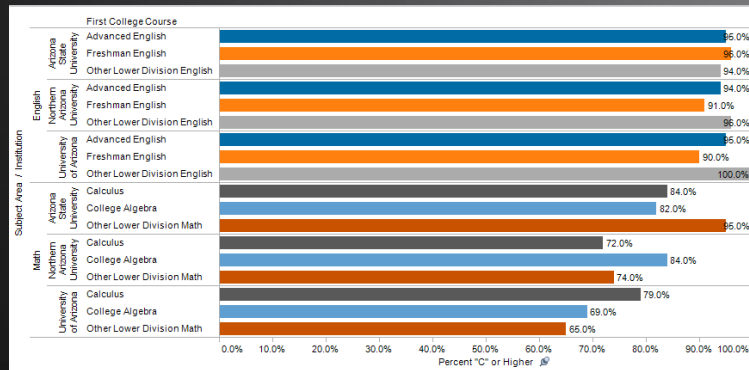

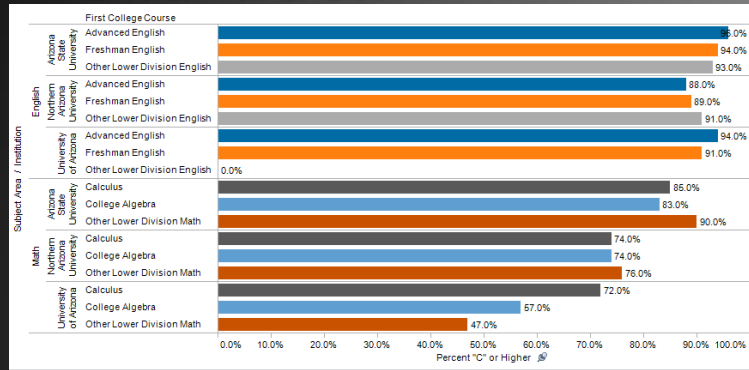

- At all 3 state universities, the percentage of students enrolling in college without academic deficiencies has risen

Percentage of students enrolled in courses in English and Math

Percentage of students enrolling in Advanced English and Calculus has risen (from 2009 - 2011)

Percentage of students earning a "C" or above in first college course in English and Math

- ▶ The percentage of students earning a "C" or above has risen or remained the same across most courses and Universities (from 2009 - 2011)

Report Card

- ▶ Page featuring this data is in progress, currently being vetted
- ▶ Page will feature more “dashboard” type design where multiple measures can be viewed in concert

Thank you
